

## Services – Metal Processing Service

### Cold Rolled Products

Austral Wright Metals operates its own modern, high quality metal processing centre for sheet and strip, offering:

<b>Cut-to-length</b>	(sheet from coil) thickness 0.5 to 3.0mm, widths 400 to 1500mm, coil size up to 12 tonnes
<b>Blanking</b>	to your requirements
<b>Slitting</b>	(coil) thickness 0.3 to 3.0mm, widths 6 to 1200mm
<b>Bar</b>	(from coil) thickness 3 to 15mm, widths 15 to 75mm
<b>Shearing</b>	(flat sheet) thickness 0.7 to 3.0mm, lengths up to 3.6 metres
<b>Polishing</b>	(sheet or coil) thickness 0.5 to 3.0mm, widths 400 to 1500mm, coil size up to 12 tonnes
<b>Plastic coating</b>	(sheet or coil) PVC or polyethylene (PE)
<b>De-coiling / re-coiling widths</b>	400 to 1500mm, coil size up to 12 tonnes
<b>Packing and strapping</b>	to your requirements, pallets, cases and crates

Additionally, we have contracted facilities available to handle just about any other processing requirement.

### Plate Cutting

In our Perth centre, we operate a computer controlled plasma arc cutting facility for stainless steel plate up to 75mm thick. Plate is cut to your shape and size specifications – without delay.
